No. 19 Broad street, Charleston, S. C.

The Charleston News.

WEDNESDAY, OCTOBER 30, 1872.

NEWS OF THE DAY.

Mr. W. T. Jones, a former resident of liken, where his parents at present reside, was recently shot and instantly killed in the Town of Baldwin, Mississippl.

Prussis is having 150,000 rifles of improved pattern made for her army, in Birmingham, Eng., and also 1,000,000 cartridges for

The barbarous custom of plercing ladles cars for ear-rings is rapidly being abolished. Several very ingenious arrangements for fast-ening in these articles of jewelry without the mal surgical operation are now sold at Jewelry shops, and are quite extensively worn. A new danger threatens society. An of the new evening silks are covered with plerate of lead, and are therefore liable to a tremendous explosion at any mement. It would be, a terrible thing, while waiting with a hisy to have her suddenly blow up.

Dr. Grant, of the American mission at Calro, has found Hebrew manuscripts of portions of the Bible in a synagogue reported to have been built forty-five years before the second temple was destroyed. It was careinly deposited in a niche in the wall ten feet shove the ground, and could be secured only by means of a ladder.

-Political advices from New York state that the Republicans are concentrating their efforts in behalf of a Republican Legislature, for the purpose of securing the return next winter of Senator Conkling to the United States Senate, and are quite apathetic on the congressmen at large and Governor. The Democrats are confident of success on the latter tickets, but are not able to predict a similar result in the

The horse disease in New York tends to lewer the market value of such animals as may be attacked by the epidemic. The value is, of course, depressed in proportion to their original worth. Over two hundred old naga were put up for sale at a horse-market in that city, a day or two ago, but, as they were all re or less diseased, the only bidders for them were the agents of the New York Rendering Company, of whom one took off twenty-three for slaughter, at the price of one dollar per head.

-The extraordinary powers of resistance of the steel, compressed by hydraulic pressure, of which the new Whitworth gun is composed, has been proven by one of the experiments made at the recent trial of the weapon. A cylinder representing the chamber of a nine pounder gun was loaded with one and a half The cylinder did not burst, but the whole charge hissed through the touch-hole, leaving the chamber uninjured. This hydraulically med steel furnishes a metal of the greatest value, since, by using it, guns can be setencted which will combine a lightness and power hitherto unattainable.

What the Radicals call "Ku-Kluxism" seems to be taking a new direction in North Carolina The Baleigh Sentinel relates seve ral instances of the brutal treatment of colored men who support Greeley, by other colored many the gradentes of the Radical League of the State, who " 'rah for Grant." In the case of the persecuted negroes, efforts were made by the Grant blacks to take their lives for no rendir except that they have pronounced themselves for Greeley. Outrageous as this conduct is, the blame should not so much rest upon the negroes, ignorant and unthinking, as upon their white carpet-bag leaders, who in the councils of their Loyal League instruct them to commit these excesses, and promise them the countenance of the administration, and of its unworthy officials in the State, to stand between them and punishment.

The Paris newspapers complain of a great falling off in the trade in Parisian articles. Not long ago the French commission merhed to the retail houses abroad, particularly to Italy, nine-tenths of the entire Paris production of toys and such like goods. Germany appeared as a purchaser to the extent of a tenth of the foreign export. In consequence of the difference of wages now, however, the French commission merchants do not supply more than fitty per cent. of their orders from Paris, Prices continue rising. For example, there has been an increase of temper cent, in the cost of implements of typography. As an instance of the grow, a of wages, it is stated that in the maire of accordeone, an article much sold for exportation, the Saxon workmen are engaged at only sixty cents per day, while the

dollar in the same employment. The mailed hand begins to press heavily in Georgia. The following incident, which occurred pear Gordon, Georgia, is narrated by the Macon Telegraph: "On Wednesday night, about 2 P. M., a band of ten United States shidlers, led by some brevet official, appeared at the dwelling of Dr. J. B. Terrell, in quest of the doctor and his son, who were from home. They entered the house and ad the premises in the rudest manner. violating with their rufflan presence the aleeping chamber of two young ladies, and even tearing from their persons the bed covering which protected them. Disappointed at not finding their prey, they then visited other domicils and arrested and bore away with them Mesert. Wm. Fountain, Wm. Califf, Wm. Bridges, Frank Kennington, Edward Walker, railroad agent, and James Fountain, Not content with thus outraging the homes and persons of their victims, these exemplary representatives of Radical law proceeded to rifle the pockets of one of their prisoners, Mr. Wm. Podnialo, of about fifteen dollars."

The office of United States Commissioner Devenport was crowded, Thursday morning, with persons anxious to know how the out-

Heinrich was arrested, was early in attendance and was closeted for a half hour with his chief, Davenport, in order to be instructed as to how he should testify. A long time was then spent in preliminaries. Davenport asked Mr. Hirsch, the counsel for Heinrich, if he was willing to admit that Mr. Heinrich was preperly registered. Mr. Hirsch replied that they should be asked to admit nothing; that the prosecution after arresting a man under very peculisr circumstances had had time enough to prepare for his trial and should do so at once. Davesport replied with lofty arro rance : "These remarks will undoubtedly go nto the newspapers, and that was what they were intended for. Now, I am going on with this case, but I am not going on with it until my witnesses are here, and whether I have one or ten days to get them here is a matter which I intend to judge of myself. I want you to understand in this matter that I am going to do just as I please." Throughout the questioning he threw in an occasional remark in the same Dogberryan vein, and while his position! wasn't exalted; enough to say that the "ermine" was dishonored through him, his conduct was contemptible nough to disgrace even a "musk-rat." Stahl answered with much circumspection and very little intelligence, and when he got cornered Davenport would step in with his offensive brusqueness and help him out. He claims that he will be sustained by the government in enforcing the Federal election law, and there is said to be a secret understanding to that effect between him and General Grant through Tom Murphy. The United States commissioners denounce Davenport for catechising Stahl in his private office, and say that he should not be allowed to occupy two offices that make him both judge and executioner. Davenport adjourned the case un-

til next Thursday. Test the Tax.

The frightful condition to which the finances of South Carolina have been brought is exclusively the work of the gang of Northern plunderers, who, by the help of the ignorant and misguided blacks, have managed to keep the control of the State ever since the se-called "reconstruction" began. But that it has been possible for systematic and unblushing robbery of the taxpayers' money to go on, unchecked, from year to year, is undeniably, to a certain extent, the fault of the taxpayers themselves. Possessing all the property and intelligence of the State, with more than two-fifths of the voting power, they have tamely submitted to be made the victims of a series of outrages, sometimes perpetrated under the forms of law, but often also in direct and palpable violation of law, at which the whole civilized world stood aghast. It is true there is among them no lack of indignation at their wrongs, or of individual willingness to seek redress; but in the absence of organization or concerted action of any kind, their threats and their protests have alike been treated with derision and contempt. Time and again has THE NEWS urged upon the people to stand together in one determined effort to secure justice for themselves and punishment for their plunderers; but so far, the taxpayers have strangely failed to make any combined or

But the time has at last come, we hope when the property owners of South Carolina will rise as one man, and demand from the Courts that this shameless spoliation should cease. More than a third of the State debt is declared, by the very men who created it, to be illegal and fraudulent. And it is to pay the interest on this debt that a new and appalling tax is to be levied. It cannot be that our people will yield, without a bitter pounds of powder, and being screwed up at the shotted end, was fired through a touchthing to gain and nothing to lose. moral sentiment and the sympathy of the whole country, without distinction of party, will sustain them in such a course.

general resistance to the exactions of the

Moses on the Fraudulent Bonds.

We find the following important and gratifying announcement in the Columbia Phosnix: "We are authorized to state that Gen-"eral F. J. Moses, Jr., (Governor elect) opposes the assessment and collection of the 'tax to pay the interest on what is known as the doubtful bonds-amounting to about "\$6,000,000-but is earnestly in favor of the 'payment of the interest on the bonds legiti-'matized by the Taxpayers' Convention-'amounting to about \$10,000,000."

The Cultivation of Jute.

We have been furnished by Mr. A. P. Ford, of this city, who is now conducting the business of the late Mr. C. N. Hubert, with some fine specimens of jute fibre, which have been placed on exhibition at THE News office, and which are well worthy of the attention of all who are interested in the subjects of agriculture or commerce. The specimens show a staple varying in length from six to twelve feet, and the fibre is soft, silky and remarkably fine. It would certainly seem from an inspection of these samples that this fibre could be advantageously applied to a far greater variety of uses than it is now put to, and if its strength and durability should be found at all proportionate to its other advantages, it might prove, for many purposes, an efficient substitute for hemp, flax, and even cotton and silk. The cultivation of jute is said to make from seventy-five cents to one be remarkably simple and easy, requiring the same employment. subsequent attention than grass or any otner spontaneous production of the soil.

Strange Apathy.

The Anderson Intelligencer deplores the singular apathy and indifference exhibited by the white people of that county, as contrasted with the persistent voting propensities of the colored population. It calls attention, in this connection, to the steady falling off in the white vote. The census of 1870 gives the total white vote at 2600 and the colored vote at 1450. At the election two years ago, the white vote was only 2073 and the colored vote 1414, making a total of 3487 votes. At the recent election, there were 1866 white persons voted and 1367 colored persons, making a total of 3233 votes. These figures show a decrease of 207 white votes from the election two years ago, and the absence of 734 whites from the polls, if the census of 1870 is correct. The colored vote remains within less than one hundred rage upon George A. Heinrich was to be de- of its fell strength. This is not the way to cided. The man Stahl, for contempt of whom | make South Carolina what she ought to be.

The Insurance Interest:

The National Insurance Convention, which adjourned last, week in New York, discussed many subjects pertaining to the objects of the association, eliciting a great amount of infernation connected with the duties of the members. The principal subject, however, but one involving almost every part of the business of insurance, was the amendment and perfection of the convention blank to which the companies are obliged to respond in making their annual reports to the departments. Many im perfections were found in that heretofore dopted, and many amendments were regard ed necessary. It is believed that a great improvement has thus been made, for which the companies as well as the public will feel thank ful. With reference to foreign companies doing business in this country, measures were adopted to place them on an equality with domestic companies in respect to examinations, thereby assuring a greater degree of se curity to the public and of uniformity of prac tice among the companies, while at the same time is afforded to the foreign companies themselves the privilege of making public in an official manner their own qualifications for the public confidence. The executive committee was charged with the duty of carrying the measure into effect.

Our Ferests Going.

The rapidity with which our American forests are melting away before the demands of civilization is one of the phenomena of the day. Few persons are aware how immense the lumber trade of the United States really is, and how rapidly increasing. Not only is this the case in the Atlantic States and in the North, but even on the Pacific coast the demand, both for home consumption and for export, is very great. From Puget Sound alone the shipments of fir were, in the year 1869, nearly one hundred and thirty-seven million of feet, and this year, so rapidly has the de mand risen, there will be two hundred and thirty-eight millions. This timber goes almost orar the world. It is shipped, acording to the customhouse records, to Callao, Tahiti, London, Mexico, Australia, Bussia, New York, China, Valparaiso, Honolulu, Panama, Calcutta and Victoria.

The Same Old Game.

It is very evident that the Administration crew in New York is paving the way for frauds similar to those which disgraced Philadelphia, and which gave Hartranst his "majority." The Federal supervisors of election in that city, under instructions from United States Commissioner Davenport, acting as a judge, re making domiciliary visits, and arresting Greeley men-especially Germans-without authority of law, and upon the most absure pretexts. The only purpose in this is to in timidate this class of voters, so that they may be kept away from the polls on election day

The one skeleton in the closet of the German Government to-day is emigration. The wholesale depopulation of Alsace and Lorraine, and the drain upon all parts of the empire, alarm the government more than aught else. It is an evil against which there is no guarding The more the government should attempt to arrest the tendency to migrate, the more de termined the people would be to "pull up stakes" and "go west." What Germany de plores the United States rejoices over and is enriched by. Germany's loss is America's

HARLESTON AND PORT ROYAL, S. C. Respectfully inform the public that, having leased the premises long and favorably known as "Clark's Planing Mill," corner of Lynch and Beaufain streets, our Office will be removed on the 1st November. With increased advantages thereby afforded, and a purpose to steadily add to our efforts and facilities to meet our business requirements was bone for a continuous of the requirements, we hope for a continuance of the paironage heretofore so kindly and liberally be-

J. H. STEINMEYER, Jr., Charleston, S. C. WM. STOKES, Early Branch, Port Royal R. R.

Musical Books.

CONTINUED BRILLIANT SUCCESS OF GEMS OF STRAUSS. This fine collection, now "all the rage," contains among its Gems, (which fill 250 large music

pages.) German Hearts, Aquarellen, 1001 Nights, Man hatten, Morgenblatter, Artist Life, Love and Pleasure, Burgersinn, Blue Danube, Marriage Bells, Bonbons, Wine, Women and Song, and many other popular Waltzes. PIZZICATO, NEW ANNEN, TRITSCH

TRATSCH, and other Polkas, with a goodly num. ber of first-rate Quadrilles, Galops, Mazurkas, &c. 'e, in Boards, \$2 50; Oloth, \$8. Sent, post 'or retail price. The Great New Church Music Book, CHE STANDARD,
